

# INSPECTION AGREEMENT

THIS AGREEMENT LIMITS OUR LIABILITY - PLEASE READ IT CAREFULLY

This Home Inspection Agreement (the "Agreement") is made effective on the date stated on Page 2 of this agreement by and between Home Analyzers LLC (hereinafter "Home Analyzers", "we", "us" and "our") and client named on Page 2 of this agreement (hereinafter "client", "you" or "your") (collectively "parties"). We are engaged in the business of providing home inspection services. You desire to have a **general home inspection** (the "Inspection") and/or **other inspection related services** ("Ancillary Services") performed on a home located at the address stated on Page 2 of this agreement (collectively "Services"). The services desired are indicated by those checked in the appropriate box beside the desired service.

**FEE:** You agree to pay the fee stated on Page 2 of this agreement for the performance of the Services selected. This amount shall be paid in full prior to the completion of the Services (unless otherwise agreed in writing by the parties). Should you fail to timely pay the agreed upon fee(s), you shall be responsible for paying in addition reasonable all fees associated with collection, including but not limited to administration costs, attorney's fees, and cost of litigation.

**SCOPE OF THE INSPECTION:** This inspection is a limited visual examination of certain readily accessible systems and components (designated for inspection herein) using normal operating controls and opening readily openable access panels. The purpose of the Inspection is to provide you with information about the condition of certain systems and components of the home at the time of the Inspection. The Inspection will be performed in accordance with the Standards of Practice of the American Society of Home Inspectors (the "ASHI Standards") (a copy of which is available from us upon request and should be reviewed by you prior to accepting our services). The ASHI Standards are hereby incorporated by reference in their entirety and are hereby made a part of this Agreement. All terms used herein and not otherwise defined shall have the meaning set forth in the ASHI Standards.

The inspector is a generalist and is not a licensed engineer or expert in any specific craft or trade. If the inspector recommends further action, including (but not limited to) consulting with a specialized expert(s), you must do so at your expense or otherwise assume all risks associated with failure to do so. **This Inspection is not technically exhaustive.** The fee charged for this Inspection is substantially less than that of a technically exhaustive inspection.

A written inspection Report will be provided describing the following systems and components: structural components (including foundation and framing), exterior, roof system, plumbing system, electrical system, heating system, installed central and through-wall air conditioning systems, interiors, insulation & ventilation, and fireplaces & solid fuel burning appliances. The Report will identify the following: (a) which systems and components designated for inspection herein are, in the professional opinion of the inspector, significantly deficient or near the end of their services lives, (b) why the inspector deems the system or component to be significantly deficient or near the end of its service life, (c) whether further evaluation, correction or monitoring is needed, and (d) whether any system or component described herein was not inspected and why it was not inspected. We reserve the right to modify the Report for a period of time that shall not exceed forty-eight (48) hours after the Report has been first delivered to you. Nothing in this Agreement is intended to limit the inspector from reporting observations and conditions in addition to those identified herein or excluding systems and components from the Inspection if agreed to in writing and signed by the parties. Should we, as a courtesy, exceed any particular equipment set forth herein in one area, we shall not be obligated to exceed the requirements in other areas.

**EXCLUSIONS:** A system or component is not readily accessible if Inspection requires moving personal property, dismantling, destructive measures, or any action that will, in the opinion of the inspector, likely involve risk to persons or property. Anything not readily observable because it is concealed or inaccessible due to obstructions including (but not limited to ) floor coverings, suspended ceiling tiles, insulation , , furniture or other personal property, soil, vegetation, water, ice or snow cannot be inspected. We are not required to move or disturb such items in order to diminish or eliminate the obstruction. We are not required to report on or engage in any practice or act that is not included or that is specifically excluded in the ASHI Standards unless otherwise agreed to in writing signed by the parties. We are not required to inspect anything identified in the ASHI Standard as limitations or exclusions specific to the systems and components inspected. The list of the following specific exclusions is not an exhaustive list; see ASHI Standards for additional exclusions and limitations. We are NOT required to determine the performance of Ancillary Services (including the purpose and the scope of

following: remaining life of any system or component, the causes of any condition or deficiency, methods and costs of corrections, suitability of the property for a specialized use, market value or marketability, advisability of purchase of the property, the presence of pests such as wood damaging organisms (including termites). Rodents or insect rot/decay, fungus, including mold and mildew, decorative items, underground items, breached vacuum seals in insulated glass, or items not permanently installed. We are not required to do the following: predict future conditions including (but not limited to) failure of components, operate any system or component that is shut down or otherwise inoperable, light pilot lights, determine the presence of hazardous substances, enter hazardous areas, or perform engineering, architectural, plumbing, or any other job function requiring an occupational license or certification in your jurisdiction (unless the inspector holds a valid license or certification and the parties agree in writing signed by the parties on the additional service(s) for an additional fee). We are not required to inspect fences, soil conditions, spas, saunas, steam baths, pools (and related equipment), outbuildings (other than garage or carport), sprinkler systems, private and community waste disposal systems, telephones, cable television, intercoms, security systems, low voltage conditioning systems, furnace heat exchangers, and heating or cooling systems when weather conditions or other circumstances may cause equipment damage. We are not required to inspect cosmetic items such as paint, wallpaper, carpet, or other finishes on walls, ceilings or floors, and any type of window treatment (such as blinds or draperies). We are not required to determine non-compliance with manufacturer's specifications or applicable regulatory requirements, including (but not limited to) building code compliance. Water/moisture, leaks, seepage and drainage problems are often only visible during or after a certain amount of rain. It is thus impossible to observe water/moisture, leaks, seepage and drainage problems unless the Inspection is conducted during or immediately after a rain sufficient to reveal such problems.

It is beyond the scope of this inspection to determine if any system or component is, has been, or will be part of any product, component or system recall in the future. Client may wish to subscribe or contact the CPSC (Consumer Product Safety Commission) for recall information regarding any system or component.

**EXCLUSIONS:** Home Analyzers is not responsible for discovering or reporting on the presence or absence of termites, mold or mildew. Furthermore, Home Analyzers is not responsible for any damages that arise from or related to termites, mold or mildew, even if the termites, mold or mildew damage is a direct consequence of a condition upon which Home Analyzers is required to report as set forth in this agreement.

**ADDITIONAL SERVICES:** We may be able to perform any one or more of the Ancillary Services listed in this agreement. The availability of the Ancillary Services varies depending on location. You should confirm availability prior to execution of this Agreement. Unless you request Ancillary Services by checking in the appropriate box beside the desired service and we agree to perform the home inspection only and does not include the other delineated Ancillary Services, including but not limited to the following: carbon monoxide test, radon gas test, water analysis, on-site wasted disposal system inspection, basic energy assessment, wood destroying insects (or organisms) inspection, pool and spa inspection, or invasive testing of EIFS, Exterior Insulation and Finishing Systems (also known as artificial or synthetic stucco) to determine the existence of moisture and damage related thereto. the service) shall be defined in a separate addendum signed by the parties.

The Customer acknowledges that the performance of services by these companies and the nature, quality and performance of any of their products is the sole responsibility of the respective companies, and that Home Analyzers shall not be liable for Customer dissatisfaction or any damages or losses arising therefrom. Further, Customer should contact the relevant service provider with questions or concerns regarding their services or products.
